Aspiring Techie:

I am a beginner programmer, I have taken a few college classes and built a few things. I also spend my time building computers and taking them apart. I've repaired PC's, phones and a laptop as well. I've taken the initiative to pursue CompTIA certifications starting with the A+ certification, passing the 220-902 section so far.

Technical Skills:

Languages (a base level of understanding):

Java, HTML5, CSS3, Javascript

Tools:

Atom, Visual Studio Code, Eclipse Oxygen, Processing5, Github, Git, Bash, Powershell, NPM, Bootstrap, Unity, Web browsers

Additional Experience:

CompTIA A+(220 - 902), Windows 7, 8, 10, Windows Office, Linux (Manjaro, Ubuntu, 4mlinux), Cisco Packet Tracer, College Classes: Intro to programming(Java - 2 classes, Web development - 1 class), Intro to Information Assurance, Intro to Computer Engineering

Professional Experience:

SPRING 2015
